

Environmental Policy Statement

To enable digitization by providing the most innovative, sustainable and secure data centers in the Nordic region. Enabling individuals, businesses and societies to carry out their critical digital activities. DigiPlex is committed to acting in a social and moral manner to protect the environment and we are responsible for minimising the impact we have on it for a sustainable future.

Our business is founded on securing a sustainable future. We lead by example and will encourage our people to apply sound environmental practises at work and at home and by sharing their knowledge with the wider community. Integrating environmental awareness and responsibility will protect and enhance the environment both locally and globally.

We are therefore committed to reducing our environmental impact and continually improving our environmental performance as an integral and fundamental part of our business strategy and operating methods. We aim to reduce environmental harm, minimise the use of energy and other resources through our innovation demonstrating the principles of sustainable development.

We will:

- Establish and measuring environmental performance against objectives and/or targets focused on achieving our vision and meeting the needs of our Customers.
- Reduce and where reasonably possible, eliminate any adverse impact on the environment arising from the activities of our business by using our innovation.
- Minimise the use of energy, resources consumed, and waste produced while undertaking our business activities in a safe and professional manner.
- Support the re-use and recycling of materials and ensure the safe and legal disposal of all waste arising from the activities of the business.
- Comply with and wherever possible exceed the environmental requirements of appropriate legislative bodies and our customers.
- Identify the significant environmental aspects and impacts from current and relevant past activities and, where we have direct control or can be expected to have an influence.
- Ensure that all staff whose work may create a significant impact upon the environment are provided with adequate and appropriate information and training and are competent in environmental matters.
- Inform and train our staff in understanding and fulfilling their environmental responsibilities and those of the company.
- Continually improve our environmental performance.

We all have a personal responsibility for working in an environmentally friendly manner; the involvement and participation of everyone will be actively sought and encouraged.

Wiljar Nesse
CEO DigiPlex
